click on add HTML tag

Add an HTML tag or upload an HTML file to your website
Recommended if you have access to your server
This method works best for most merchants

Verify with Google Tag Manager
Recommended if you're already using Google Tag Manager on your website

Verify with Google Analytics
Recommended if you're already using Google Analytics on your website

Add an HTML tag

Upload an HTML file

Copy the code

To verify your website, follow these steps:

1. Copy the HTML tag generated for your website.
`<meta name="google-site-verification" content="eJ1VXDhaPT3S-zQ1RHTpPozSxvcFIznNGDxr5-R16Ug" />`
2. Paste the HTML tag in the HTML code of your site's home page. It should go in the <head> section, before the first <body> section. [See example](#)
3. Click "Verify website" below to submit your website to Google Search Console for verification.
4. You will receive a confirmation email from Google Search Console and be able to continue to the next step (claim your website).

Don't remove the HTML tag even after you've been verified. If you remove the tag, you'll lose your verification. You need this verification for website claiming and having your products approved. The tag acts as a marker to help Google identify your website and doesn't provide access or permissions to your website.
