

# A Gardening Calendar with Personalized Reminders!

The Farm Your Yard app will tell you when you can plant your next batch of vegetables and fruits and then send you automatic reminders on how to take care of them and when to harvest them. The future of farming is Grow it Yourself (GIY).

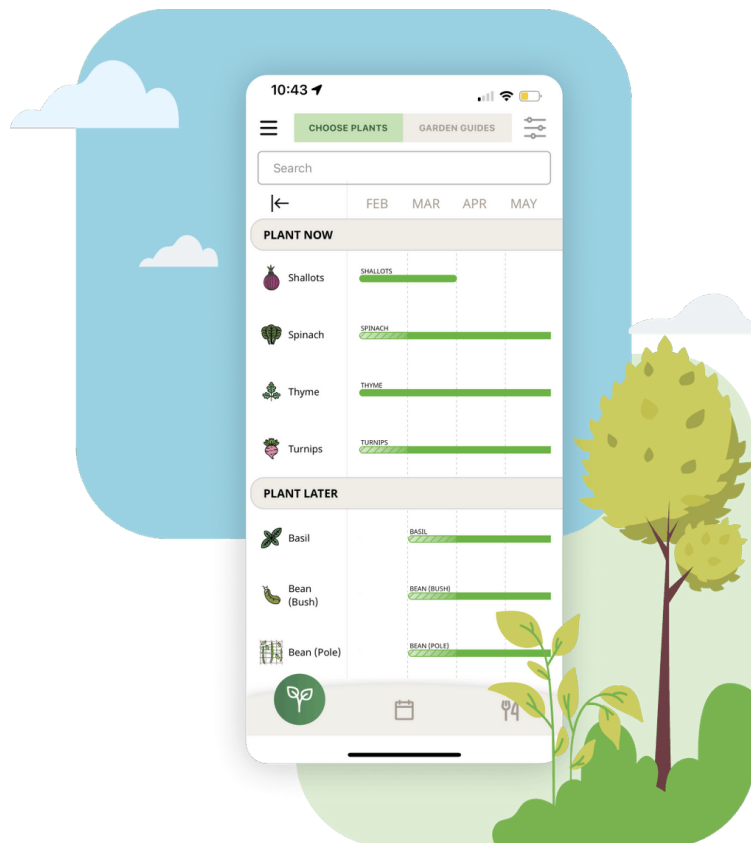

Farm Your Yard is a nonprofit organization dedicated to helping more families grow their own food.

MAY

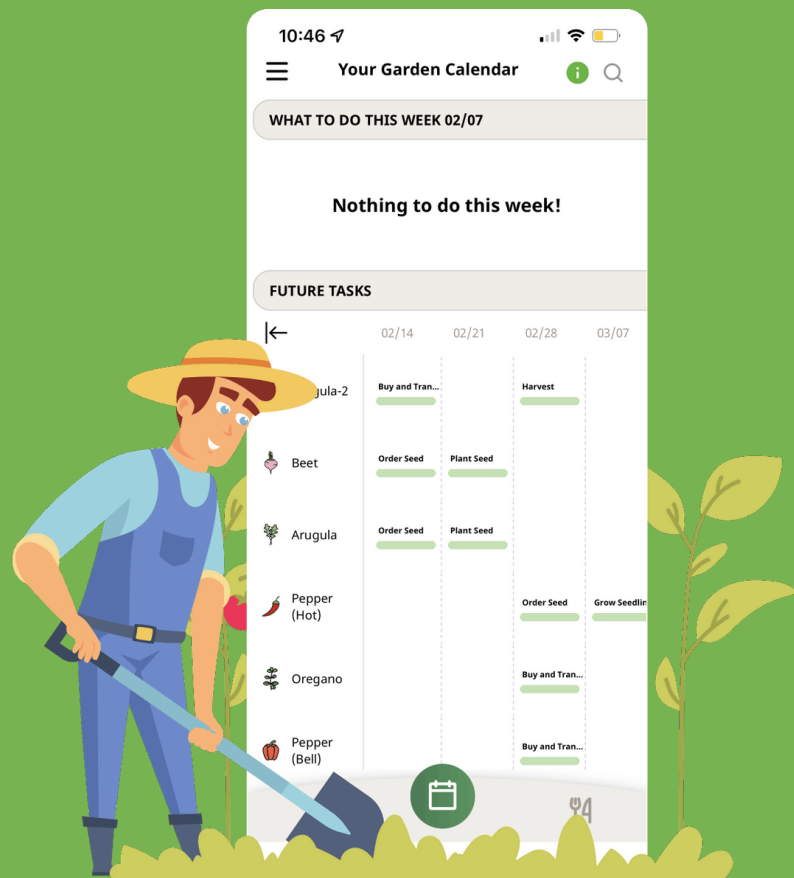

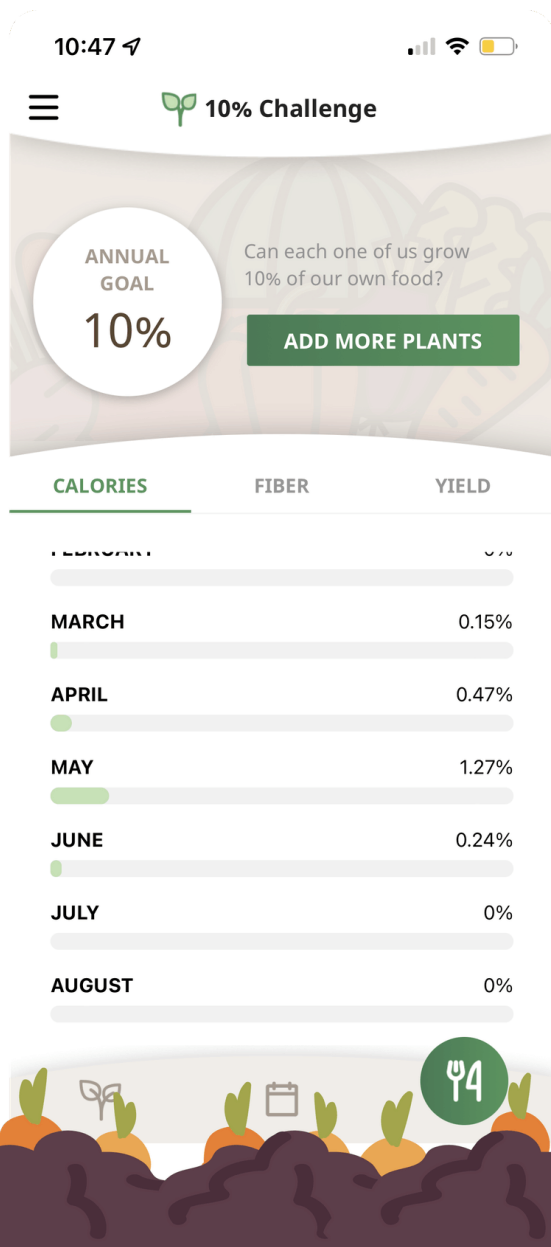

## Make a plan

- Choose from over 99 vegetables, fruits, and herbs.
- Get a customized garden calendar based on your location.
- Plant the right crop, the right way, at the right time.

# Grow it yourself

- Choose from over 99 vegetables, fruits, and herbs.
- Get notifications for every activity, so you don't miss a step.
- We do the boring work. You do the dirty work, literally!

## Measure your heart

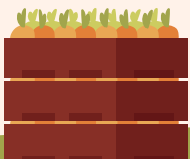

- Track your garden progress with personalized plant journals.
- See how much food you're harvesting. Go harness all the nutrients you're cultivating.
- Change how you shop. Change how you eat.

# A Not for profit app

We're a bunch of tech nerds who fell in love with urban farming. So we decided to give families better tools to turn more of their space into producing farms. At heart, we believe growing more of our own food is good for our community, our planet, and our health. And it's easier than you think!

This app is the beginning of our journey, and we need your help, so please share your feedback!
