Overview Test events Diagnostics History Settings

Test your events

Check that your events are set up correctly. Test events are meant to help you validate that your website, app and server events are being received as intended. There is no guarantee that the behaviour that you see in Events Manager Test event page will be the same in other Meta environments.

Any data processing restrictions resulting from your personal ad preferences and third-party data controls and consent status will not apply to your test events.

Learn more

Events may be delayed Test events appear in real time, but it may take up to 30 minutes after you set up your event to see it in your analytics.
